WE ARE HAW HAMBURG.

What we develop at HAW Hamburg has a direct impact on society. This makes it all the more important to clearly express the core elements that make our university what it is: our values, our goals and our self-image.

The following pages provide a picture of this brand identity. HAW Hamburg students and staff can use this guide to understand how they can best represent our brand.

A CLEAR MISSION.

We are the university of applied sciences for people who want to engage actively with the world.

Knowledge, action, change: each day, these intrinsically linked values inspire us to meet and tackle the societal and technological challenges of our time. As well as providing the specialists and managers of tomorrow with the interdisciplinary knowledge they will need in their future careers, we seek to advance their problem-solving skills and their awareness of their responsibility in and to the world.

With the applied sciences at the heart of all we do, we work hand in hand to create a visionary campus with a positive and enduring effect on Hamburg and the surrounding region.

HAW Hamburg.
Because you can make a difference.

OUR VALUES IN BRIEF.

People-focused.

We emphasise skills-oriented teaching with an interdisciplinary approach. Each HAW Hamburg graduate leaves us with the necessary skill set for their individual personality and is perfectly prepared for the world of work. We nurture talent and see ourselves as a supportive coach. Our wide-ranging network in business and society means that we offer our students the best possible platform for making a lasting difference in the world.

Up close.

Our degree courses are designed to teach usable knowledge and practical skills from the very beginning. We work closely with our partners in the business sector and are thus able to give our students a head start in the job market – all in an interdisciplinary and inspiring setting.

Responsible.

HAW Hamburg promotes educational justice, and we take on responsibility for societal progress. We not only develop sustainable solutions to the challenges of our time but also make the well-being of our students a focus of our work. For example, we actively support student health management at our university through the CamPuls project.

Open-minded.

We create a diverse environment for our community. Made up of people from over 100 nations, HAW Hamburg is an international university. It also cooperates with more than 140 universities around the world.

MAKING A DIFFERENCE IS OUR JOINT PROJECT.

We give our students and staff an ideal framework for initiating change. At our university, people come together to form a creative community.

In this inspiring setting, you can work to bring about a world where the future is also worth living in. Making a difference is what drives us and is therefore part of our DNA.

OUR POSITIONING

HAW Hamburg is the university of applied sciences for people who want to help shape the world.

In the claim, we communicate the positioning and the promise in a brief, unifying statement.

OUR CLAIM

HAW Hamburg.
Because you can make a difference.

The motivation to make a difference and create change is the reason to choose us as a university. However, the claim intentionally leaves open what can be changed. This could also be people's own goals. We allow space for individual interpretations.

LIVING AND LOVING THE BRAND.

Our brand is more than just a logo, a claim or a good design. It builds trust, generates positive associations and creates joint experiences.

This is what our brand stories are for. They explain, concisely and without fuss, why people simply have to love us.

By speaking with one voice, we ensure that our messages can be heard among the many voices that make up the media.

Especially for a university with the stated goal of working for change, a solid brand is essential. It is both inspiration and calling card. For prospective students, it provides guidance in choosing a university. For the public and partners, it communicates what we stand for as an institution. It shapes our work culture and is the guiding star for our future development.

The brand identity was developed in a participatory process with HAW Hamburg members and will be further developed on an ongoing basis.

A group of diverse students are gathered around a table in a bright, modern classroom or study area. They are looking at and discussing documents and papers. A young man with dreadlocks is in the foreground on the right, looking intently at a document. Behind him and to the left, several young women are also focused on their work. The background shows large windows with a view of green trees outside.
